

Summer's Over and We're All Refreshed?

Or is it time for a Refresher?

For those of you who missed the introduction last month of Total Order Entry with Internal FTP, you don't want to delay another minute. We've eliminated the need for using and communicating with a 3rd party transfer software (FileZilla), saving you multiple steps and lots of time. Make the switch - you'll be glad you did.

Call TradeTech Solutions and we'll help you implement this new release.

TTS Archives - Automating the EDI Order Process

TTS Archives is one more way improve the efficiency of the EDI order process.

- Working in conjunction with T.O.E. and Internal FTP, TTS archives automatically organizes inbound and outbound communication files that are entered through the FTP.
- Does your manufacturer require summary reports to go along with the EDI communication? TTS Archives enables you to easily and quickly download either a detailed report or summary report of what was sent.

Did You Know?

There will be a new TTS Platform version being released mid-September that will be optimized for mobile, tablet and laptops. Take a look.

Large Screen Layout (desktop)

The screenshot displays the TTS Platform desktop interface. On the left is a navigation sidebar with the TRADE TECH SOLUTIONS INC. logo and various menu items like Dashboard, Action Items, Company Data, CRM, Data Files, Customer, Contact, Contact File, Contact File Import, Contact File Search (highlighted), Product, Marketing, Project (Opportunity), Quotation, Sales, Tools, and Total Order Entry (TOE). The main content area is titled 'Search Contact File' and includes a search bar with 'todd' entered. Below the search bar is a table of search results with columns for First Name, Last Name, Email, Direct Phone, Mobile Phone, Company, Address, City, State, and Phone. The table contains 9 rows of data.
